

# Why M365 Business Premium?

In addition to the suite of Office products and hosted email, there are a ton of security and usability benefits of Business Premium. Here are some of the most relevant ones!

### **Enjoy Microsoft 365 apps**

Get the latest features and capabilities with fully installed and always up-to-date versions of Outlook, Word, Excel, PowerPoint for Windows or Mac, OneNote, Access, and Publisher.

### Get email and calendaring

Use enterprise-grade email through Outlook with a 50 GB mailbox per user and send attachments of up to 150 MB.

# Improve appointment scheduling with customers and partners

Simplify how customers schedule and manage appointments with Microsoft Bookings. Utilize an easy-to-navigate webpage where they can find and book appointments around the clock.

### Mobile devices management

Apply security policies to help protect work data on company-owne and employee devices. Keep company data within approved apps. Remove data from lost or stolen devices with Microsoft Intune.

### Help protect business data

Encrypt sensitive emails and restrict copying and forwarding of confidential business information with Azure Information Protection. Enable unlimited cloud archiving.

#### **Conditional Access**

For example, users can only login from a certain If address, at certain times, or a certain location.

Edit and share documents and other files from anywhere on all your devices with 1 TB of OneDrive cloud storage.

# Collaborate with instant messaging and meetings

Get your team on the same page using group chat, online meetings, and web conferencing with Microsoft Teams.

### **Defend against cyberthreats**

Activate Microsoft Defender for Office 365 to help guard against viruses, spam, unsafe attachments, suspicious links, and phishing attacks.

# Enable secure remote access and protect identity

Help employees securely access business apps wherever they work with conditional access. Safeguard against password loss or theft with advanced multifactor authentication.

## Get enterprise-grade security with Microsoft Defender

Get protection against sophisticated ransomware attacks across devices—Windows, macOS, Android, and iOS—with
